In an emergency...

Your *SunCat* is equipped with a VHF radio which is monitored on channel 16 by Baytown Marina, the U S Coast Guard and EC-SAR (Eckerd College Search and Rescue, a volunteer service). In the event of an accident or medical emergency, you can call for assistance on channel 16. Baytown Marina will respond if possible. The Coast Guard will not respond unless it is a life threatening situation. They may, however, request assistance from the Coast Guard Auxiliary or EC-SAR which will respond if they have equipment available.

For a problem like simply being overdue, it is better to plan your cruise so that situation can be avoided. If you cannot return on time because of conditions beyond your control (no wind and engine failure), you will be located and towed in by one of the above agencies.
